Rodeo Parade Promises To Be Bigger and Better

Ed Corson, parade marshal of the Coleman Annual Rodeo parade has this week announced that visitors to Coleman on July 9th will see a replica of last year's rodeo parade which was voted as being the biggest ever held in the history of the entire Pass area.

The first and second prize winners of last year's float contest, Bodio and Sartoris and Joe Troitz of Coleman will again go all out to take top honors in the mile-long colorful event.

Parade Marshal Corson has invited entries from all over Southern Alberta and British Columbia and has requested that any organizations or persons wishing to enter a float have only to contact him and arrangements will be completed. Organizations that

are planning on entering floats in the Calgary Stampede parade are invited to enter their floats in the local parade and give Pass residents an opportunity of seeing a parade as colorful as Calgary's event.

It was also learned today the well-known Cranbrook Girls' Band will be in the Coleman parade. This well trained precision drill team will put on a display at the rodeo grounds as well as in the parade.

The parade is scheduled to march off at 10:30 a.m. and travel through town and will be led by local and out of town bands with whom arrangements are being completed.

Coleman Collieries Show Fine Safety Record For May

With the release of the monthly accident report of the Coleman Collieries we see that the International Plant heads the list with a No Accident record for the month of May. The International Plant has now gone over 100 days without a lost time accident. This is a good record for any plant of this kind. The Coleman Trucking Co. came second and tied with Tent Mountain each with one lost time accident, but both were not of a serious nature as you may know, the Truckers have held the top record for no accidents for so long, that it is strange to see them with a second, well even the best have to slip once and a while. Both the Truckers and Tent Mountain have to be congratulated by having such a small accident report.

McGillivray Mine had 8 accidents in May, two of these had no time lost. All in all for mining operations this certainly is not a bad report.

Coleman Elk's Giant Bingo Proved Highly Successful

Some 1100 people crowded into the Coleman Arena Friday evening to participate in the Bingo for the season by the Coleman Lodge B. P. O. Elks. Lucky winners for the evening were;

1. Grocery Hamper— Mrs. Ponti, Natal, B. C.
2. Luggage set— Mr. R. Fyfe.
3. Waterless cookware set— Mr. W. Davis, Elko, B. C.
4. 24 pairs Nylons— two winners split this prize, J. Bartelli and J. Bartusek, Frank.
5. Fishing Basket— Clarence Clarke, Coleman.
6. Westinghouse Washer— Mrs. E. Biegun, Coleman.
7. Two Tri-light Lamps— Mrs. Putchok, Blaimore.
8. Telescope Rifle— W. Davis, Elko, B. C.
9. Chrome Kitchen Suite— J. Plante, Coleman.
10. Silverware set— Mrs. M. Taron, Coleman.
11. Camp Stove Outfit— Mrs. A. Kropinak, Blaimore.
12. Bedroom suite— Mrs. N. Sumanik, Frank.

Consolation prizes went to: H. Hobek, Natal; Mrs. T. Lorenz (2), M. Perini (2), Mrs. G. MacDonald, Mrs. M. Brown, Blaimore; J. D. Jenkins, Natal, Miss A. Castellano, J. Fortunano, Bellevue, and Mrs. VanWyck, Burnus.

Door prizes went to: N. Chatterson, Natal, C. Bond, S. Bozeley, Mrs. J. Reid, Mrs. Dancosine, H. Parkinson, L. Kapola and J. Whittaker.

Local Man Drops Dead in the Coleman Hotel

Mr. John Petrunik of Coleman suffered a heart attack which was fatal on Tuesday morning at the Coleman Hotel. Mr. Petrunik had entered the beverage room and shortly after ordering refreshments fell off his chair with no sound. The barman on duty called Chief of Police Corson and Dr. Russell. Dr. Russell pronounced Mr. Petrunik dead. The date of the inquest has not been set as we go to print.

Showers Honors Recent Bride

A shower was held Wednesday evening in the Italian Hall in honor of Mrs. R. McCartney the former Mona Rasmussen whose marriage took place recently in Lethbridge.

On entering the hall with her mother the bride was presented with a varied colored carnation corsage by Mrs. M. Linderman her sister-in-law. They were then escorted to a place of honor. Whist and Bingo were played with honors going to Mrs. H. Maslen first, Miss A. Castellano, second and Mrs. G. Clarke, consolation in whist. The blackout went to Mrs. Vasek of Hillcrest in Bingo.

Following a lunch served by the hostesses the honor guest opened her gifts assisted by Mrs. D. DeCecco and Mrs. M. Perano. The hostesses gift was a rug, camister set and cake safe. While amongst the other gifts she received a two burner hot plate, lamps and an aluminum roaster. There were numerous other miscellaneous gifts.

The assembly was thanked very graciously by the honor guest.

Hostesses for the evening were, Mesdames R. Campbell, G. Clarke, M. Perano, M. Juhlin, D. DeCecco, D. MacDonald, M. Houda, W. Knight, M. Linderman, J. Hardy and the Misses — S. McCartney, A. Castellano, and A. Hadas.

Surprise Party For Mrs. J. Drew

A very delightful surprise party was held recently at the home of Mrs. J. Kullig in honor of Mrs. J. Drew who left to take up residence at Fort St. James, B.C. Joint hostesses for the evening were Mrs. Kullig and Mrs. J. Zur.

Entering the home Mrs. Drew was presented with a corsage of violets. Following this whist and bingo were played and enjoyed by all. Following a delectable lunch served by the hostesses, Mrs. Drew was presented with a lovely picture of Crow's Nest mountain and a pair of earrings. Mrs. Drew thanked her friends and expressed her regret at leaving Coleman.

Mrs. Drew a native of Coleman received all of her education here. She left Sunday with her two children Rodney and Holly Ann.

HELP FOR CRIPPLED CHILDREN

Here's "Timmy" with C.B.C. producer Essie Ljungh. Eleven-year-old Sandy McDonald of Hamilton is this year's "Timmy", and represents the thousands of crippled children in Canada who are aided by the annual Easter Seal Campaign of the Society for Crippled Children. Funds raised from the campaign help provide crippled boys and girls with essential items such as crutches, braces, wheelchairs, nursing services, and special treatment and equipment, and give them the opportunity of attending a camp designed specially for them.

Steve Mraz Elected To School Board

Monday saw a very poor turnout in the election for a school trustee to replace Mr. J. Bayon who resigned this position. — Results of this election were:

Steve Mraz	140 votes
Mel. Dunford	85 votes

New Club House At Blaimore Golf Course

The new clubhouse of the Blaimore Golf and Country Club, located in one of the most scenic locations of the Crow's Nest Pass, was officially opened here Saturday night when well over 100 golfers from Lethbridge west to Cranbrook, B.C. were present for the special occasion.

The club house will be the scene of much activity on the week-end of June 24, 25 and 26, when the Crow's Nest Pass Golf and Country Club holds its annual tournament which was last held here in 1947.

A voluntary effort by the members of the club, it was built this spring and is one of the most modern clubhouses in this part of the province. To approach the clubhouse, signs have been erected immediately west of the railway crossing at the west end of Blaimore on the north-side of the highway.

A large archway has been built to guide visitors to the site of the parking lot which is situated near Burns Creek and is entirely surrounded by 60-foot-high larch trees, and a colorful foot-bridge has been built over Burns Creek. All timber work has been painted a rust color and is coated with varnish, giving the site a warm western atmosphere. The clubhouse is constructed of peeled logs painted a rust color. A spacious balcony, shaded by a marquee, has been built all around the south and east sides of the building from which visitors and players can enjoy a view of the course and the scenic mountains in the area.

The interior of the building has also been completed in modern western styling and the ceiling has been finished in a natural wood effect. The interior walls of the building are the same effect as the outside decorations. A lunch and refreshment counter has been constructed in the north-west corner of the clubhouse, and a lounge has been provided for the convenience of the members and visitors.

With the grounds of the course being ably looked after and put into top shape by Gordon Huton, the club is anticipating one of the biggest and best tournaments yet held in the Crow's Nest Pass Golf Association circuit.

The local club has arranged social events and club luncheons, and a dance will be held at the Turtle Mountain playgrounds at Frank on Friday evening.

Fines Imposed On Coleman Residents

Piore Perla of Coleman, was fined \$75 for assaulting a Coleman woman, and instructed not to go near this lady again or he would receive a jail sentence.

Pauline Kroesing was fined \$150 for being intoxicated while on the interdict list.

Stephen Janostak was sent to the Lethbridge jail for a period of three months at hard labor for supplying liquor to the aforementioned interdict.

Richard Aidoft was sentenced to 30 days on each of four charges of theft with no option of a fine.

John Taron was fined \$75 on a theft charge of hub caps and voluntarily made restitution for same.

RCEME Reserve Army Men Expected Attend Summer Camp

Capt. E. A. Fontana, officer commanding the 31 Technical Squadron RCEME of Blaimore, stated that he expected to have about 30 men of all ranks attend summer camp being held at Sarcee training camp from July 9 to 24.

These men will be issued with bush uniforms and other regular equipment for this training period. Some of the men can only attend for one week while others will take the two week course. On Sunday, June 26, all ranks and families will journey to Waterton for a picnic. The 8th R.C.E.M.E. regimental band under the direction of Bandmaster P. Beddington will also be in attendance. It is understood that members of the 32 Tech. Squadron from Lethbridge will also attend this picnic.

While we are on the subject of picnics and good fun we wonder what the final score was in the football game held Sunday between the local R.C.E.M.E. and the R.C.E.'s were so far out in front, well fellows, I don't want to tell just how bad it was. We know that the R.C.E.'s pulled a fast one on you by coming so unexpected but we hope next time to see a much even score, you got to watch those fellows from Lethbridge they are tricky. Maybe if you could get Sgt. Mysalick and Squares loosened up that would have made a difference, maybe summer camp can help them a little, we hope. It could have been that they were just giving the R.C.E.'s a chance.

Coleman Expects Over 20 Contestants in Hose Laying Contest

The Coleman Fire Department Hose Laying contest slated for July 1 has to date received over twenty requests for applications to enter. Entries from as far east as Redcliff, north to Calgary and west to Kimberley, B.C. have signified their intentions of entering. Don't forget the Coleman Volunteer Fire Department Tag Day which will be held in the morning of July 1. Support the Coleman Smoke Eaters.

Coleman Athletes Win Grand Aggregate At Cardston Meet

On Friday, June 10, a group of seven athletes attended the Track and Field Meet at Cardston. This meet brought together some of the finest athletes in the Province including a very strong team from Calgary and the Raymond team. Of seven aggregates (for the various age classes) Calgary took four, Raymond two and Coleman took one.

Wilma Bodisch was entered in two events in her age class under 14. Wilma placed first in both events, the 60 yards dash run in 8.3 seconds and in the Broad Jump she made a distance of 11' 10".

Eddie Belter had entered in four events, in three of which he made third placing. He placed third in 100 yards run in 10.6 secs., third in 220 yards run in 24.5 secs., and third in the Broad Jump in which he jumped a distance of 18' 2". This was in the 18-19 age group.

Arnon Johnson obtained a third in the 100 yds. for girls under 16, and just missed a placing in the 60 yds.

Eddie Vincent missed the start badly in the 100 yds. event in his class for boys under 18, but finished right up with the others. In the Broad Jump, he was very unlucky as he jumped in actual distance better than the winners but could not hit the board. Incidentally this age group appeared to have some outstanding athletes entered as one of the competitors has been unbeaten in the events he has entered for years.

Michael Hill placed third in his heat in the 100 yds., but just failed to place in the final.

The other two athletes, Walter Tymchyna and Taras Tswis failed to place in their events. Taras pulled a muscle in training and competed only in the 100 yds., while Walter was recovering from an injury received a few weeks ago and could not reach his top form.

All in all, it was very gratifying to have these athletes do so well as they did as all but Eddie Belter have never been in competition before and training had not been brought up to a stage where these competitors could be at their best. In fact, in most cases, the athletes from Coleman were still far below the form needed when entering this type of meet. Under the circumstances, the results obtained were very good.

In this town there are some very good athletes, but a lot of these have not yet been brought into the training. It is to be hoped that those who have the ability to run or jump will be willing to try out and, when asked, take the training that can be provided for them. It is not intended to teach a person to run or jump, but to aid those who have the ability, and thus improve it. This is a specialized sport and any person participating cannot hope to excel in it without proper coaching. The coaching facilities have been offered, but there has been a disappointing attendance. In future, all athletes will be given a try out and allowed a length of time to reach a specified standard. Only those reaching the standard set will be entered as a club member. Those made members will be expected to adhere strictly to training schedules as made out covering the whole of a year. In this way it is hoped that Coleman will in future have the athletes to show the cities that they are not the only places to produce top competitors.

Coleman Athletic Assn. Formed For Minor Sports

On Wednesday evening of last week the meeting called for the purpose of forming an association to promote and guide minor sports saw the formation of such a body. Mr. John McDonald was elected President and Mr. Horace Allen (elected as general secretary. The job of treasurer was put in the capable hands of Mr. J. R. Hill. Other committees formed were: Finance, with Mr. J. R. Hill as chairman with representatives from the interested organizations present. The duty of this committee is to promote finance and to disburse to the different bodies as required, in all matters concerning finance this committee is in charge. The training committee was formed with Mr. Joe Wavrean as chairman. This committee's job will be to organize teams, appoint coaches, and in general will supervise all aspects of training for the different sports. With not enough appointed representatives present from the organizations supporting this association no committee's were set up for transportation or liaison. The most important committee of all is the co-ordinating committee whose job will be to supervise all committee's and in cases of disputes or player discipline will be the deciding body. All of these committee's will as the different sports get under way add members from the teams themselves, so as the youth's progress they will be trained and capable to supervise their own sports. There are members from practically all organizations in Coleman, including the churches, town council, and service clubs. All players will be insured as regulations call for, especially in the Pony League it is expected that all players in all of the sports will be insured as this association progresses. All Coleman citizens are requested to get behind this fine organization.

D. F. Rice To Cominco Research Post

TRAIL, B. C. — D. F. Rice has been appointed to the newly-created position of supervisor of Research Administration for Consolidated Mining and Smelting Company. The announcement was made by A. D. Turnbull, manager of the Company's research and development division. Mr. Rice's appointment became effective on January 19.

Mr. Rice was born in Thandani India, where his father was serving in the Indian Army. He came to Canada in 1920. In 1935 he received his B.A.Sc. in mining engineering at the University of British Columbia. He joined Cominco in that year, starting work on the labor gang. He later served as smoke tester, assayer and testing engineer, and in 1945 was appointed supervisor of Metallurgical Research. He joined the administrative controls staff in the next year and in 1950 became supervisor of projects.

He is a member of the Canadian Institute of Mining and Metallurgy and the Association of Professional Engineers of B. C. Mr. Rice has served prominently in the local Christian Business Men's committee, and also the Gideon Society, of which is western trustee. He is married, has four daughters, and lives in Rossland.

Fires take lives many children

Half of all Canadians killed in fires each year are children under 15 years of age, according to the All Canada Insurance Federation.

Officials of the Federation, which represents more than 200 fire, automobile and casualty insurance companies, said the two leading causes of child deaths were lack of knowledge regarding what to do when fire breaks out and leaving children alone in the house.

They recommended the following precautions:

Never leave children alone for long periods of time.

The telephone number of the local fire department should be kept near the telephone.

Make sure baby sitters are mature, responsible people; always leave complete instructions on what to do if fire breaks out.

Make sure there is a fire extinguisher for use in case of fire that is not blocked by furniture or other obstructions.

All windows and doors except fire exits, should be tightly closed at first sign of fire or smoke.

Keep at least one fire extinguisher on hand at all times, and know how to use it.

Never delay in turning in a fire alarm; the first few minutes count most.

Children who missed can still have vaccine

REGINA—Over 26,000 Saskatchewan children born in 1949 and 1950 have now received their first dose of Salk Vaccine, Health Minister T. J. Bentley has announced. However, Mr. Bentley said had roads, fear and perhaps other factors prevented an additional ten or twelve thousand children receiving the benefit of this vaccine. The department of Public Health would like to see these "missed" children get the vaccine.

In organized Health Regions, arrangements have already been made for the children to be taken care of by their own failed to receive the vaccine on the day arranged. The regional Medical Health Officer knowing local conditions in each region will decide if any special arrangements are necessary.

Outside organized health regions at the 15 special centres over 40 percent of the eligible children failed to show up on the appointed day due to poor roads. When the visiting teams of public health nurses go back to these special centres to give the second dose of vaccine they will give the first dose of Salk vaccine to those children who for some reason were missed on the first time around.

Officials at the department of Public Health would like to stress that Salk vaccine in Canada is safe. Hundreds of thousands of doses of this vaccine have now been given to Canadian children without any ill effects.

Approved poultry flocks increase

REGINA—Saskatchewan's approved poultry flocks are getting larger, according to figures issued by Frank E. Payne, provincial poultry commissioner.

During the 1954 banding season, 1,024 flocks were approved, said Mr. Payne, and these consisted of 228,889 birds. The 1953 count showed a total of 1,120 flocks approved containing 212,201 birds, giving an average flock size in 1953 of 198 and in 1954 of 212.

"This increase is significant, for the overall number of poultry in the province has steadily declined over the past few years," he said. Saskatchewan's favorite breed has continued to be light Sussex with 33.7 percent of the birds banded held second place with 22.8 percent. New Hampshire and White Leghorns placed a close third and fourth with 14.2 percent and 13.2 percent respectively.

Summer hazard

One of the hazards of country life is raw milk, usually the only kind obtainable—unpasteurized milk, that is. Unless pasteurization has taken place, raw milk may be the cause of undulant fever, typhoid or paratyphoid fever, or septic sore throat in those who drink it. If it is not possible to obtain pasteurized milk at camp or cottage, it is safe to make the milk quite safe by heating it to 140 degrees F. and then cooling it quickly. This few minutes' work will help to prevent these diseases which are serious and sometimes fatal.

Forage crop seed orders exceed previous seasons

REGINA—Seed orders received so far this spring under the Saskatchewan agriculture department's forage crop program have exceeded any previous season, according to figures released by R. E. McKenzie, director of the plant industry branch.

So far this year 3,300 farmers have received supplies. The average seed order is for 17 acres which means that some 55,000 acres will be sown with the 400,000 pounds of seed already shipped.

"With moisture conditions favorable to forage crops prevailing this spring, the chances of establishing stands are excellent," said Mr. McKenzie. "It is expected some 4,000 orders, enough to seed some 70,000 acres will be received by the end of the spring sowing season. This would mean that the spring seeding under the plan would nearly equal last year's 72,000 acres sown both in the spring and fall seasons."

Commenting on the fact a large number of grass seed orders are being received in season where farmers generally are past the season, Mr. McKenzie said that in some areas at least, livestock producers would appear to be in a better cash position than straight grain farmers. The past two seasons, in some areas, though difficult for many grain farmers, have been excellent for livestock men as pasture and hay crops have been above average.

The director said in the past, livestock producers have not paid enough attention to seeding culti-

SEVENTEEN COMMUNITIES IN SASKATCHEWAN have a direct personal interest in native-born members of the Saskatchewan Golden Jubilee Choir which on Tuesday, May 31, sang before 20,000 Rotarians from 90 countries gathered at the Rotary International Convention in Chicago.

Although the choir members were picked from Regina schools to facilitate weekly choir practices and rehearsals, twelve girls and four boys were born in other parts of Saskatchewan. This was shown when, in preparation for their trip into the United States, each singer listed the date and place of his or her birth. Outside of those born in Regina no two choir members were born in the same city or town.

Among the Saskatchewan communities that can claim one choir member for a native daughter or son are Birsay, Lumsden, Avonlea, Moose Jaw, Saskatoon, Fort Qu'Appelle, Lemberg, Weekes, Quill Lake, Melfort, Vanguard, Earl Grey, Varing, Kandahar, Carleton Place and Wadena.

"This makes our choir truly representative of Saskatchewan," said Neil Harris, Jubilee director of musical productions, after scanning the records in a final check-up to see that his charges had everything ready for their departure.

Portage championship plow meet attracting large number

Challenges are flying thick and fast and the Portage la Prairie district is preparing for the biggest holiday crowd in its history, on June 22, date set for the annual Western Plowing Championships, rolls around.

Last year 8,000 people watched Mayor Harry Veier as announced master prairie plowmen vie for ed that he will defend the title he won at last year's match. Mayor Veier, who once won a novelty challenge race against a horse, has also promised to wrestle any which will be held at the farm of Russell Metafe, five miles north and five miles west of the city.

In addition to the serious competitions, there will be challenge matches for ministers and legislative members and for mayors. A. H. (Hammy) McDonald, leader of the Saskatchewan Liberal party, has announced that he will take on Manitoba's minister of Agriculture, Hon. R. D. Folger, winner of last year's event. But whether or not Mr. Robert Folger again competes, competition will be forthcoming from four other Manitoba legislators. They are: Gildas Molgat, M.L.A. for St. Rose du Lac; Rodney Clement, M.L.A. for Russell; Ray Mitchell, M.L.A. for Gilbert Plains; and R. W. Bond, minister of Health and Public Welfare, representing Rockwood.

Meanwhile, Mayor H. L. Henderson of Portage has extended a challenge to all mayors of Canada and the U.S. and Medicine Hat's

Entertainment will be provided by the R.C.M.A. band, while the Canadian Provisor Corp will handle the traffic. One of the buildings on the Metafe farm is to be converted into a dining hall, where meals will be served. Refreshments will also be available at a concession booth.

A new and important event has been added to this year's list of contests. It is the Manitoba 4-H Club competition, sponsored by the Vopul Press of Portage. The competition has donated a trophy, miniature and prizes totalling \$200.

The class will be limited to novices, according to Joe Forbes, secretary-treasurer of the Plowing Match Association. No previous winners will be eligible nor will winners be allowed to compete for the Manitoba or western championships. However, they may enter one of next year's open classes.

Booklet available on fires in the home

REGINA—A recently published booklet "Fires in the Home," produced by the department of National Health and Welfare, Ottawa, for the Canadian Civil Defence Corps, is now available in Saskatchewan. This was announced by J. O. Probe, director of Civil Defence, with the department of Social Welfare.

The illustrated booklet shows how fires are started, how they spread, and what can be done by the householder to protect a home against danger from fire. The booklet also tells and shows how to fight a small home fire and how to escape, and includes a chapter on fires in time of disaster.

Copies of the booklet are available free of charge from Mr. Probe's office. The booklet has been approved and is recommended by the provincial Fire Commissioner.

Yellow light attracts insects less than white light.

wan," said Neil Harris, Jubilee director of musical productions, after scanning the records in a final check-up to see that his charges had everything ready for their departure.

For their second visit to Chicago the choir travelled by train, going direct to Winnipeg and then south into the United States by way of Emerson. The first trip in 1954 was made by bus, with stop-overs at Milwaukee and St. Paul.

In Chicago the choir also sang before Rotary delegates from the British Commonwealth at a special Commonwealth banquet. On Wednesday morning, June 1, they were guest artists on Don McNeil's Breakfast Club radio and TV show which has an audience of 25,000,000.

From Chicago the choir travelled to Toronto for a brief visit to the Happy Gang show and then to Ottawa for a concert on Friday night, June 3, sponsored by the Ottawa branch of the Saskatchewan Alumni Association. Saskatchewan members of parliament were special guests.

Commemorate Jubilees with new 5c stamp

On the 30th June, 1955, a new 5c postage stamp will be available throughout Canada. This new stamp is being issued to commemorate the 50th anniversary of the provinces of Alberta and Saskatchewan.

The stamp was designed by Laurence Hyde of Ottawa. It will be horizontal in format, measuring 1½ by 1 inch in size and will be blue in color. The stamps are being engraved and printed by the Canadian Bank Note Company, Ottawa, and will be issued to postmasters in panes of 50 stamps each.

This stamp is being issued as a tribute to the thousands of pioneers who settled the two provinces and contributed to a splendid record of progress and achievement.

The principal Canadian Post Offices will have the new stamp for sale on the 30th of June. Orders for this stamp in selected retail condition may now be sent to the Philatelic Section, National Branch, Post Office Department, Ottawa 4, Ontario. The orders will be filled and returned at the earliest possible date after the 30th June.

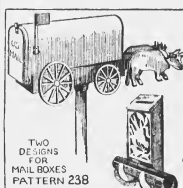

Orders for new issue postage stamps only will be given preference over mixed orders for both the new issue stamps and other issues. This postage stamp is of the commemorative type and will not be re-used when the original supply is exhausted, and will not be overprinted with the letter "G" to indicate its use by federal government departments.

Canadians are second highest users of oil

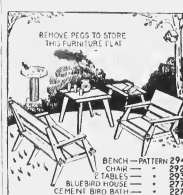

Canadians, reports The Financial Post, have a huge appetite for oil. Per person we are the second highest users in the world. As a nation we are the world's third largest consumer. One-third of Canadian homes are heated by oil. There is one motor vehicle for every four Canadians, three tractors for every four occupied farms.

It is a steady race between production and consumption. Ten years ago we were producing less than 10 percent of our requirements. Now we are up to almost half, but the annual gains have been getting smaller since the first big jumps after LeDuc. Why? Because consumption, too, has sprung, up over 50 percent in the last five years.

Home Workshop

The covered wagon design for rural routes may be adapted to any size mail box of the type shown in the sketch by making the platform fit the bottom of the mail box. The oxen and both sizes wheels are traced onto the wood directly from the pattern. The small letter box with bird cut-out on the door and arms for holding periodicals is for home use. The postman rings twice. Tracing diagrams for all saw lines and pointing outlines for both boxes are on pattern 228. Copies of this pattern are available to readers sending 35c with name and address.

This outdoor living room set has features which do not appear in the sketch such as the extreme simplicity of construction. This appeals to the weekend furniture builder who may have only hand tools to work with. The legs and other members of this set are designed that an ordinary hand saw is all that is needed to cut the pieces to size from stock sizes of lumber. When it is time to store them for the winter just remove the pegs. Actual-size cutting diagrams and assembling directions are on each pattern. Single patterns are 35c or all five numbers will be mailed to one address for \$1.50 postpaid.

Giraffes, because of their poorly developed voices communicate with each other mainly by switching their tails.

New booklet out on Canadian Holstein-Friesian cattle types

REGINA.—A new booklet, the first of its kind entitled "A Study in Type and Production," published by the Holstein-Friesian Association of Canada, is being distributed by the Animal Industry branch, department of Agriculture and the Holstein-Friesian Association.

The selections for this all-Canadian booklet have been made by the independent judging of about a dozen dairy cattle judges that have worked major shows," said W. E. E. Rodger, livestock specialist with the branch, "and it shows pictures of the best and next-to-best Canadian Holstein-Friesian cattle, in each class shown during 1954, with each animal's history. We are most happy to see the booklet, it will be invaluable in our work with younger people, for we can show them just exactly what we want our cattle to look like."

The 30 pictures in the book list the two best aged bulls, three-year-old bulls, two-year-old bulls, senior yearling bulls, junior yearling bulls and bull calves, the aged cows, four-three- and two-year-old heifers, senior yearling heifers, junior yearling heifers and heifer calves as well as the first and second winners in the poll for produce of Dam and get of Sire.

In the front of the book is a table showing the average of all record of production records kept on Holstein-Friesian cows during 1951, 1952, 1953 and 1954, during which time 124,682 cows were tested.

"Production testing of dairy cattle has played an important part in the development of the industry in Saskatchewan," said

WEEKLY BIBLE COMMENT

WE HAVE NEED TO WORSHIP ASSEMBLED

We gather together to ask the Lord's blessing. This begins a famous old hymn, which expresses the spirit and reality of Christian worship.

"Why should we go to church?" someone might ask. Can we not be equally good Christians in our individual way, seeking to live well toward God and our fellow men?"

It is much easier to have a vague and general love for all men than it is to have a particular and very real love for the neighbors, or toward one's associates.

The "bond of fellowship" is of the very essence of Christian worship, much as faith and devotion have their beginning and rise in the individual soul. In a community in which the church represents a bond of fellowship among those who live within its area, it becomes a mighty force for mutual encouragement in all that is best.

But there can be danger in emphasizing too much the social activities of the local church.

One essential definition of the church is that it is "the body of Christ." This means that if the spirit of Christ be not in the body, no matter how fine the organization it is not the Church of Christ.

And when that first, deepest, essential nature of the church is attained, all its social activities are of great value. For churches are, and ought to be, places of fellowship; social institutions as well as places of formal worship.

DECODED INTELLIGRAM

1—Oregon. 2—New York. 3—Do. 4—Panama. 5—Tennessee. 6—Louisiana. 7—Wyoming. 8—North Dakota. 9—Missouri. 10—Utah.

On The Side: E. V. Durling

A "homey" hostelry

All the floors at the recently constructed Hotel Leatrice in Coventry, England, have a different color scheme of decoration. There are red, pink, green and yellow floors. The linen used on each floor matches that floor's color scheme. Another interesting innovation at this hostelry is that every bathroom has a special drying rack for nylons so feminine guests won't irritate their husbands by hanging their stockings on the shower bath curtain rack.

Another achievement for "Army"

One of the world's most efficient missing persons bureau is conducted by the Salvation Army at its headquarters in London, England. This bureau has connections everywhere in the world except behind the Iron Curtain. It has the remarkable record of finding 66 percent of the missing persons it has received inquiries about.

Everyone wants to get into act

Note in progress for campaign for an annual Grandmother's day. How about an Auld Lang Syne day when everybody would get together with old friends or show them they are not forgotten by writing a letter, making a phone call or sending a gift? Another good one would be a kind to each other week.

Where does lamb come in?

Australians are the world's greatest meat eaters. You can travel thousands of miles in Australia and never find a vegetarian. The Australian life expectancy is 65 years. So don't let any vegetarian make you believe that a steak or roast beef diet will shorten your life.

Patience pays off

Research reveals the average woman takes seven minutes and fifteen seconds to get dressed ready to go out. If she has a full length rear view mirror in dressing room, it takes twice as long. To be exact, sixteen and one-half minutes. However, if your wife has a full length rear view mirror don't complain about waiting for her a little longer. Be thankful. The mirror will probably prevent her from going out with her skirt full of wrinkles in the back making it appear as if she has been sleeping on a park bench. 3145

APPETIZING RECIPES

OVEN-FRIED CHICKEN

2 eviscerated chickens (approx. 2 1/2 lbs. each) or equivalent in cut up chicken
1/2 cup flour
1 1/2 teaspoons salt
2 teaspoons paprika
1/4 cup melted butter
1/4 cup broth or milk
Disjoint and cut chicken into serving pieces. Wipe thoroughly with clean cloth. Place flour, salt, paprika and pepper in paper bag and shake to mix.

Place 2 to 3 pieces of chicken in bag at a time and shake to coat with flour mixture.

Repeat until all chicken is coated. Meanwhile, melt sufficient fat in heavy frying pan to make layer 1/2" deep. Heat fat until drop of water just sizzles in it.

Brown chicken in fat. Remove pieces and arrange in a single layer in shallow pan. Combine melted butter and broth or milk and spoon over chicken.

Bake in moderate oven 350 degrees F. until tender, 30 to 40 minutes. Turn once to crisp evenly. Yield: 8 servings.

Form of torture

Depriving a person of sleep has often been used as a form of torture. Since sleep is necessary to mankind as well as animals, there's no sense in being one's own Spanish Inquisition by skipping the sleep essential to health. The period of rest required is an individual matter, some adults requiring more than others but the amount of rest found to be most effective should be taken regularly. Children and adolescents require more sleep than adults, so it is wise to limit parties, movies or television-watching to those evenings when there is no school next morning.

Out of his depth

Anyone who has suddenly got out of his depth in water may know what the momentary feeling of panic may do to him. If he is a swimmer, he is soon master of the situation. If he is unable to swim, the moment may be tragic. Swimming is one of the healthiest and most enjoyable of exercises and it pays to learn the art. A non-swimmer should never attempt to handle a canoe or to bathe in water where the depth changes suddenly.

Seven of Canada's ten provinces are larger in area than the United Kingdom.

Help officials at local meets

All you fellows who are competing in track and field should remember this: your school athletic directors or your city or town track officials have a tough job to do. Why not get out there and help them before the day of the meet. Check with them beforehand to see if you and your pals can help lay out the field and so on. You will be helping yourselves because you will have better conditions under which to train and compete.

Improve your tennis

Most tennis players, when hitting the ball, have their weight on their back foot and this bad habit causes a lot of errors. . . . taking away most of the pep and power you should get into each stroke. The weight should be on the back foot but as your racket comes through at the ball and you actually hit it, your weight should, by now, have shifted to your lead foot. This gets your body behind each stroke. Once you have learned to use your weight correctly all your strokes will increase in power, style and general effectiveness.

Hot weather tip

Now that the warm weather is here and we all seem to drink more—why not try lemonade sweetened to your taste with honey. It's a wonderful drink loaded with the energy athletes need. Try honey on your fruit salads as well!

Field them "loose"

A common fault that many fielders have is holding the hands and arms stiffly when fielding a

New Angling Seasons Announced For Alberta

New angling regulations were announced recently by the fisheries branch of the provincial fish and game department.

Under these new regulations which are of special interest to more than 30,000 trout fishermen, the season for trout, grayling and Rocky Mountain whitefish on the Red Deer river and its tributaries and the North Saskatchewan river and its tributaries opens May 1 and ends Sept. 30, both dates inclusive.

On the Athabasca river and its tributaries, with the exception of the McLeod river and its tributaries, the season is open for the entire year. There is an open season July 1 to Sept. 30 on the Spray Lake drainage system.

In other waters of the province, the season is open for the entire year.

In lakes frequented by lake trout, the open season is from May 16 to Sept. 15.

There is an open season for the entire year for pike, pickerel, perch and goldie in waters frequented by trout, grayling, Rocky Mountain whitefish or lake trout except during the open season for the latter species.

Per Day Catch Limits

Trout, Grayling and Rocky Mountain whitefish—Fifteen fish of one species only or 15 fish in

the aggregate; subject to a catch limit of 20 pounds of trout. Exception: Spray Lake Drainage system: 10 fish; possession limit of 10 fish.

Lake Trout—10 fish only. Pike and Pickerel—15 fish of one species only or 15 fish in the aggregate.

Perch and Goldie—25 fish of one species only or 25 fish in the aggregate.

Pike, Pickerel, Perch and Goldie—25 fish in the aggregate. Exception—5 pike and 10 perch only in the following waters: Barnes, Clear-Lake; Arm Lake; Jackfish Lake.

Possession Limit—2 days' catch where precaution taken to prevent wastage.

Minimum Size Limit

Pickerel—12 inches; lake trout—15 inches. (Measurement from point of the nose to the centre of the tail.)

Angling Permit Fees

Resident: In waters frequented by any trout, grayling or Rocky Mountain whitefish—Season \$2.25; three consecutive days, \$1.00.

Non-Resident: In all waters—Season, \$2.25; three consecutive days \$1.00.

"Non-resident" means any person who has not resided continuously for six months in the province immediately preceding the granting of a permit.

Children under 16 years of age do not require an angling permit. Seasonal permits valid—1st

April, 1955, to 31st March, 1956.

General Regulations

"Angling" means the taking of fish with hook and line held in the hand, or with hook, line and rod, the latter held in the hand, but does not include set lines or lines tied to a boat.

"Trout, Grayling and Rocky Mountain whitefish" includes cutthroat, rainbow, Kamloops, Loch Leven, brown, Dolly Varden, speckled or any hybrid trout, Arctic or Montana grayling and Rocky Mountain whitefish.

"Lake Trout" means salmon trout or Great Lake trout.

"One day" means from one hour before sunrise to two hours after sunset.

No angling permit is valid unless signed by the permittee. Anglers must carry their permits and produce them at the request of an officer.

When a beaver pond or flowing water is regulated by trout, grayling or Rocky Mountain whitefish, no one shall angle through the ice on the pond or water.

Prohibitions: It is unlawful—

1. To use more than one rod and line or one line, and more than three hooks on any line; such hooks shall be a sufficient distance apart to prevent a fish from being hooked on more than one at the same time.

2. To trap or snare fry in streams frequented by game fish.

3. To liberate live minnows in waters other than those from which they were taken.

4. To introduce non-indigenous fish alive into any waters.

5. To use spears, snares, lights, luminous bait, firearms, dynamite or other explosive material in killing fish.

6. To use bare unhooked hooks or gnapnels, for taking fish.

7. To obstruct any stream frequented by any kind of dam, trap, net or other contrivance.

8. To destroy the fry of any food fishes.

9. To wash any motor vehicle in waters frequented by fish.

10. To deposit any meat, bones, dead fish or parts of same, or other food for fish, in any water for the purpose of luring fish, known as "advance baiting".

11. To sell, trade or barter, any fish caught by angling.

12. To fish for, catch or kill any sturgeon.

13. To leave a fishing line unattended.

Fish Sanctuaries

No fishing is permitted in the following waters which are set apart for the natural or artificial propagation of fish:

Mami Creek, tributary to Mami lake;

Drywood river and all tributaries thereto;

Carbondale river and all tributaries thereto;

All tributaries to the downstream right bank of Crownsnest river and all tributaries to Crownsnest lake;

Racehorse creek and all tributaries thereto;

Dutch creek and all tributaries thereto;

Lyndon creek (tributary to Trout creek) and all tributaries thereto;

North branch Willow creek and all tributaries thereto upstream from Dick's bridge (south-east quarter of section 28, township 14, range 2 west of the 5th meridian).

All tributaries to Sheep river except that portion of the North branch Sheep river downstream from Millville bridge.

All tributaries to Jumping Pound creek and that portion of Jumping Pound creek upstream from its junction with Sibbald creek;

All tributaries to the Ghost river.

All waters within the north half of section 29, township 26, range 31 west of the fifth meridian, (Bighill creek research station).

Bighill creek, Grand Valley (Coal) creek, Spencer creek, tributaries to Bow river.

The Bow river or irrigation canal flowing through the Inglewood Bird Sanctuary, Calgary;

All tributaries to Upper and Lower Kananaskis lakes and to Kananaskis river.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

All tributaries to Spray lake:

The canal in the Spray Lake drainage system from its outlet at the power plant in Three Sisters dam to its junction with Goat Valley Pond, also known as Third Lake.

meeting advertised in the four constituencies of Little Bow, Okotoks-High River, Macleod and Pincher Creek Crownsnest, at Claresholm on Friday night. "If it is right for M.L.A.'s to borrow from treasury branches, why the legislation designed to make it legal. If it isn't right, I suggest the Premier was wrong. Premier Manning has contradicted himself twice in calling this election. First he said it was absurd and ridiculous for the question to be raised and then when he asked for dissolution of the Legislature, he said it was a grave and serious matter. You are being asked by the premier in this election to approve or disapprove the actions of the Opposition in asking questions about some highly important questions on the spending of public moneys. If the Social Credit government goes back, the opposition members will be told by the premier that the people of Alberta don't want an opposition, don't want any questions asked, don't want watchdogs on the public purse".

Mr. Prowse produced a small book "This is the rule book for M.L.A.'s; it is on their desks at all times and it clearly lays down what an M.L.A. may or may not do; the Legislative Assembly act is clearly printed in it. How Social Credit members, who have been in the Legislature much longer than I have, could unwittingly have broken the law in the act I do not know. In any case if you are found using purple gas in your car, the magistrate doesn't let you off because you say you didn't know you were breaking the law."

Mr. Prowse went on to say that the chairman, S. C. Hoare, president of the Macleod Provincial Liberal Association, had introduced him as the man who has been tagged as the M.L.A. who had singlehandedly upset a government, and added "It must have been in a very weak position for one man to upset it." He went on to say that the opposition had been having a hard time getting facts in the public accounts committee which had finally been called after a lapse of seven years although he had requested one every year. "It's like conducting a contest with 51 men and the referee against you. If the Liberals are elected, they will see to it that the public accounts committee sits every session and that half the members will be named by the government side, half by the opposition side and that the chairman will be named by the leader of the opposition. We will let the opposition do a real job of being the watchdog of the government."

Mr. Prowse promised that the Liberals would take responsibility not only for major highways but secondary highways and relieve the municipalities of some of the burden of road building. He said that he couldn't see that buying out the power companies would be practical since it meant a lot of outlay; the answer was to let the money to see that the country was electrified under a general plan and that present R.E.A. members are re-imposed for their outlay.

C. V. Bennett, who is Liberal candidate in the provincial constituency of Macleod, said he was in the contest principally because the Social Credit government had refused to disclose the facts about the public's business and that the premier had just brushed off the questions. "He is prepared to scrap any safeguards of our democracy if it suits his convenience. The Social Credit party is not standing for the principles of democracy but for those by which it would destroy democracy."

At the close of the meeting there were a number of questions about medical services and health program, road policy and municipal

affairs. An audience of about 150 from towns such as High River, Blackie

Vulcan, Nanton, Staveland, Macleod, Pincher Creek attended the meeting.

The Coal Miners Are Forgotten Men

The coal miner is the forgotten man in Alberta today. No government seems to care very much what happens to him.

Our coal industry is going from bad to worse. In the Crows Nest Pass lay-offs continue and the mines work only a few days a week. The future is very uncertain—for coal miners and their families, for local business men, for all who depend upon coal for a living. Are our one thriving towns soon to be turned into ghost towns?

The coal miner is the forgotten man because—

(1) The Liberal government at Ottawa puts the profits of U. S. coal trusts ahead of the interests of Canadian miners.

(2) The Manning Social Credit government at Edmonton is too busy giving away our oil and natural gas to U. S. oil corporations to bother about a few thousand Alberta coal miners.

The present crisis in the coal industry is entirely unnecessary!

There is a market in Canada for all the coal we can produce—enough to keep our mines working 5 days a week for years to come—but instead the government allows 20 million tons of U. S. coal to be dumped into Canada yearly.

Our coal could be processed right here for its many valuable by-products such as plastic, drugs and dyes, but the government does nothing about it and instead prefers to have these articles imported from the U. S. A.

We have the iron ore, limestone, coal and natural gas—all the essentials for a steel industry—right here in the Crows Nest Pass, but instead the steel we need is imported at high cost from the U. S.

The Manning government took in \$293,000,000 from oil in the past 5 years; it has a surplus of \$235,000,000; this year alone it is spending \$223,000,000—yet on the coal miners it spent only \$100,000 to rehabilitate some laid-off men.

A subsidy of a few cents a day for bus fare for a few Alberta miners working in B. C. (who now have the 12-hour day as a result).

The Manning government has said much about the need to honor our pioneers on Alberta's 50th Anniversary, but at the same time it allows our pioneer coal miners to be thrown on the scrap heap.

Ben Swankey, the Provincial Leader of the Labor-Progressive Party and L.P.P. candidate in this constituency, is well known among coal miners throughout the West for his consistent and courageous fight for a National Coal Policy. He is fighting for:

1.—Canadian coal for the Canadian market—Keep out U. S. coal as long as our own mines are idle.

2.—Industries to process coal for its by-products should be established in the Crows Nest Pass.

3.—A steel industry for the Crows Nest Pass.

These would provide jobs for our unemployed, keep our miners working steady, create opportunities for our youth, expand business for our local business men and create a stable home market for our farmers.

Ben Swankey can be depended upon to carry this fight for a coal policy and for the people of the Crows Nest Pass into the provincial legislature. He will not allow the government to any longer ignore the coal industry. All who depend upon the coal industry for a living are urged to vote for him.

To vote for the Manning government or for the Liberals or Conservatives is to vote for a depressed coal industry. The time has come to vote for new policies and in the first place for a new coal policy such as advocated by Ben Swankey and his party.

On June 29th, vote SWANKEY, B. R. 1

Published by the Pincher Creek - Crows Nest Constituency Committee of the Labor-Progressive Party.

J. Harper Prowse Addresses Meeting At Claresholm

J. Harper Prowse, Liberal leader, asked if he were supposed to play ostrich as a member of the opposition and ignore the people's business, when he addressed a

Letter From Egypt

Dear Folks:

I am sitting out on the front verandah and "brother" it's hot, not a breeze stirring, and the air feels like it has come from a hot oven. I do think though that the climate here is the most beautiful in the world, there is sunshine every day without fail, and most of the time the temperature is around 70 and 80 degrees, and that is

comfortable. Our garden is now beginning to resemble a jungle again, the hollyhocks are in bloom and are from 8 to 10 feet high. The roses and sunflowers are out and the yard is just loaded with bloom. I can go out and pick a large bouquet of roses any time I choose. The Egyptian flowers don't differ too much from the North American ones, except the wild ones, which of course are found on the desert. The grapes are starting to form, the plum tree

took a beating, Danny took great pains one day to carefully remove all the green ones and used them for "dubbs" of all things.

Steve, Danny and Christopher Paul are all in excellent shape. Danny is the funniest little fellow this side of heaven, you just have to look at him and laugh, he is so comical. He attracts attention where ever he goes. Steve is becoming more serious and reserved, he will be going to the British Boy's School this Fall. Danny still has to have his mid-day nap so I don't know if he will make kindergarten or not. Christopher Paul is starting to walk, he is a lovely baby, he should have been a girl, his eyes are pretty like the other boys, and his hair has a wee bit of curl to it. He eats rice, potatoes, meats, fruits, practically everything the other kids eat, and they all have the best appetites in the world. I wish you could see Harold now, his complexion as you know is very fair, but now he is black, and I mean black, his hair looks almost white. I am pretty brown myself, but not so impressive as Harold. The kids are good and brown too.

For the first time in history, a Canadian naval vessel came into an Egyptian port, "H.M.S. Quebec". Being one of nine Canadians in Alexandria, I was entertained, and had quite a say time. There was a cocktail party on board ship for the officers, and then a party for lower ratings at one of the night clubs. Boy! You should see the Belly Dancers — they are all belly, believe me—

Met up with a lady ex-Vancouverite, married and living in Cairo. It's sure funny when I mention Cairo, seems no more than referring to Edmonton or Calgary.

I now belong to the Egyptian University Women's Club as an associate member, being as I received equivalent university training in the military services. Also belong to the American Women's Club (just a gossip session, really).

I joined the Y.W.C.A. and now take part in ping pong, musical appreciation. I am supposed to give a piano recital if I can get up enough nerve, also help with dramatics, etc. Most of the members are Egyptians, and belong to the Coptic Church, which is the Christian Church of Egypt. That is something I never knew exist-

ed. It just goes to show you that one can become educated every day. In a way I am going to be sorry to leave Egypt, because we have made some wonderful friends. Recently we met Dr. and Mrs. El Massre, Mr. and Mrs. Sidhom, Mr. Sidhom is a lawyer in Alexandria. They are very nice people and also a lot of fun.

I had to fire Hanam, our maid. She became very lazy, cheeky and bossy. So out she went. She wanted us to take her back, but we said not —la! la! (Arabic). I now have a Nanny for the children and a girl comes in every day to clean house, wash and iron, etc. I have taken over the cooking department. Theo, the Nanny, is Greek. She is an older woman with more common sense. The kids like her, and she sees that their clothes are washed and mended, supervise their meals, washes and bathes them, gets up every morning at 5 o'clock that's the time the kids arise, dresses and feeds them. I have more time to play with them now. The funny thing is now that I can sleep in the mornings. I can't go more than 7 o'clock, no matter how hard I try.

The T.W.A. could not locate the bag they lost containing Harold's clothes, so they compensated. Harold and I had a gay time picking out his new wardrobe, and it's "snazzy": one light grey suit, one almost black, and to go with the extra black trousers a white double breasted jacket for formal wear, also some slacks.

Tailor made clothes are dirt-cheap, \$45 for a suit out of this world.

Will close for now with kind regards to you all.

HAZEL.

Written by Mrs. Harold Platt, Alexandria, Egypt.

Twenty Years Ago

Happenings in the Past 20 years also show that the fiercest attribute to the Klu Klux Klan was burning on Tallon Peak near Passburg. It was believed at that time to be a warning to someone in Passburg.

Still another antidote from the past is this reminder to two young women of 20 years ago from Coleman who had intended hitch-hiking to New Brunswick and only got as far as Kenora, Ontario. The disappointed girls were forced to return as they reported little chance of getting rides east of the lake country. We see from 40 years ago where British and Italian miners were on strike because aliens were not interned, it was of a short duration, as federal authorities took action.

World Happenings In Pictures

TALLY-HO!—Mass obstacle jump by 132 horses takes place as Bill Taylor guides 132 of them, stabled under the hood of his pickup truck, over a hazard under a foxhunt at Charlottesville, Va. Taylor says that his iron steed's speedometer clocked the four-legged thoroughbreds at between 35 and 40 miles per hour during the course of the hunt.

CORNY, BUT NICE—Synthetic material with corn fibre as its base is what these mademoiselles are modeling in Paris, France. The sprinkling can is to show you that the material is waterproof, and the manufacturer claims that garments fashioned from the new fibre are also warm as wool, soft as cashmere.

MRS. AMERICA—Blonde, blue-eyed Mrs. Ramona Deitmer, 35, of Lincoln, Neb., poses at Ellinger Village, Fla., after being crowned "Mrs. America of 1955." Mother of five, she is five feet, five inches tall, weighs 125 pounds, has a hip measurement of 34-26-36. Some 15 thousand dollars' worth of prizes, including a trip to Europe, are hers together with the title.

SWEET-TOOTH PASTE—Putting the squeeze on the latest breakfast-table hazard—jelly in a toothpaste-like tube—is Richard Pindark, of East Cleveland, Ohio. The new product "squeezes" just as efficiently as old-fashioned jartype jelly, to judge from Richard's face.

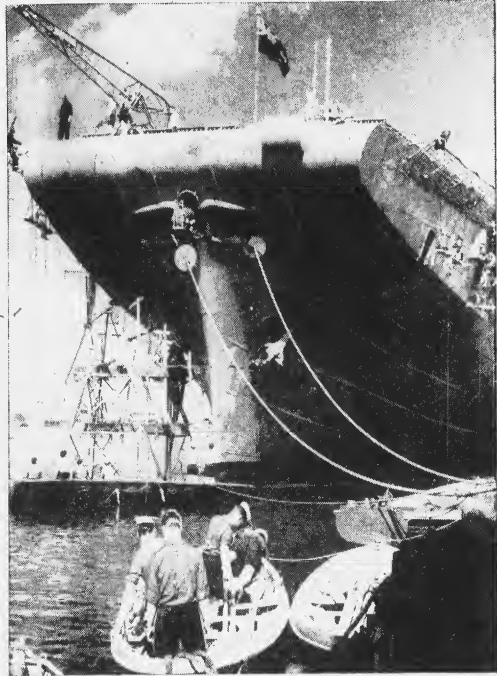

BRITAIN'S supersonic acrobatic team plays follow the leader as they practice for the fifth international air display in Holland May 30. The three planes are Hawker Hunter jets.

For safety's sake

Industrial accidents are usually due to someone's carelessness or neglect, often on the part of the employee who does not avail himself of the protective devices designed for his job. Goggles and guards for the eyes are intended to prevent injury from flying particles or from too intensive glare. Regulations are planned to make the worker conscious of dangers in his job and to prevent him from being injured. If gloves are advisable they should be worn. If the female worker is advised to wear a cap when working around machinery, it is for her own protection.

DESALTING SEA WATER

Sea water sufficiently free of salt to supply quantity needs of industry, farming and residential communities may become available with the next decade U.S. Army engineers are working on a solution to the age old problem of desalting the water at reasonable cost.

MAGNIFICENT CLEAN-UP IN PUERTO RICO—Sailors from the Canadian aircraft carrier HMCS Magnificent work on the bow of ship during clean-up in San Juan, Puerto Rico. The carrier is on a training cruise.

NEW SHIP—The sleek modern vessel above is the Canadian Pacific Steamships' new Empress of Britain, which will take the place of her predecessor sunk during World War II. Queen Elizabeth will christen the 22,500-ton liner in June at ceremonies on the River Clyde in Scotland. The ship will enter service next spring.

ALDERMAN Harry V. Ward, Mayor of Margate, Kent, confers British nationality on "Margate Miracle," celebrated jumping bullfrog from Angel's Camp, Calif. Margate Miracle is enroute to South Africa to represent Britain in the world frog jumping championships.

More than one-half the earth's crust is made of silica.

SIX-YEAR-OLD SUSAN THORNE curtsies as she presents a bouquet to the smiling Princess Margaret at the world premiere of "The Dam Busters," a British film based on the daring wartime raid on the Meuse River dam, in the Ruhr, Lord Tedder, Marshal of the Royal Air Force watches the presentation.

A BALLERINA SWAN SUIT in cotton saten is teamed with a gay plaid. Fashioned by Sea Nymph, it has inner boning and a Felon lined bra.

OUR COMPLETE SHORT STORY—

RUFÉ FINDS KATY

—By I. W. TOBIN

RUFÉ LARINS was in trouble, but he didn't know why. He knew he was in love but he didn't know that love was causing him trouble. That's what love does to people.

It was Saturday night in the little town of Belleville, and as usual Rufé had driven the 12 miles from the farm to get shaved, buy some chewing tobacco and some nails. What he really came to town for was to see Katy McCullum.

There were others there, too, farmers just like himself, in town to buy a few things and to talk crops. Rufé seldom talked crops. He'd just listen, chew his tobacco and lean up against the front of the post office which was just across the street from old Bob McCullum's hardware store where Katy worked.

Rufé was tall and thin. His face was normally sad. His eyes reminded one of a baby's bloodshot. Every Saturday night, rain or no, Rufé loaded up on chewing tobacco, got a barber shop shave and bought some nails. He didn't need the nails. There were plenty at home, but when he bought nails he got to talk to Katy McCullum.

"What are you going to do with all these nails, Rufé?" Katy would ask.

"Oh, I got a little fixin' up to do on the main crib," he'd answer. "Seems like you fixed that corn crib last month." Katy would say as she weighed out a pound or so.

"No, that was the hog pen or the washin', I forget which." One Saturday night, the little group in front of the post office was smaller than usual. When Rufé got there his heart seemed to stop the hardware store was closed.

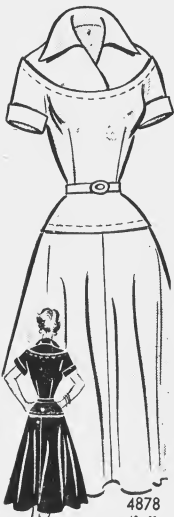

"Well, Rufé, how's things out your way?" asked Farmer Jones. "All right, I guess. What's the matter with the hardware store?" "Old McCullum closed up early so Katy could go to the carnival," asked Rufé.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dragging or rubbing when you eat, talk or laugh. Just place this pleasant powder over your removable base of added comfort and security by holding plates more firmly in gummy, loose, pasty taste or feeling. It's alkaline, non-acidic. Get FASTEETH at any drug counter.

Wardrobe wonder!

4878
12-20
by Anne Adams

You're so smart, so right to see this new-season casual! It's the most versatile dress you could have in your wardrobe! Neat enough for the office—flattering enough for a special date! And made in a lustrous silk or cotton fabric—it's simply terrific!

Pattern 4878. Misses' Sizes 12, 14, 16, 18, 20. Size 16 takes 5½ yards 35-inch fabric.

This pattern easy to use, simple to sew. Is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to: Department P.P.L., Anne Adams Pattern Dept., 60 Front Street W., Toronto.

"Why, you came by it comin' to town."

"Come to think of it I did see a bunch of lights and tents at the edge of town but didn't pay any attention," said Rufé.

Rufé suddenly had business elsewhere. He turned and walked up the street to his car. He just had to see Katy, carnival or no carnival. Her smile and street voice made the world go around.

Minutes later he was in his car and driving back the way he had come. As he drove he chewed tobacco and thought of Katy. In his mind's eye he could see her as she always was—dark blue eyes the color of new overalls, hair a kind of steel color and skin the same shade as skimmed milk. Oh, she was a girl in a thousand. And polite, too.

Soon Rufé saw the lights of the carnival up ahead and turned off the road and parked his car. Before him was the carnival—music, lights, side-shows, sawdust, hot dogs and people. Funny he hadn't noticed it as he drove by before. Thinking about Katy did that.

Rufé didn't even know what he'd say to Katy when he saw her. His usual brand of conversation consisted in buying nails. What he'd say to her in a carnival he didn't know, but he was going to try.

"One side, fellow, and let the lady by," said a harsh voice behind him.

Rufé turned to see a city fellow, probably from the carnival with a girl on his arm. The girl was Katy.

"Why, hello, Katy," Rufé managed to mutter.

"Hello, Rufé, want to buy some nails tonight?" said Katy, giving him her best smile.

"Nails? Ho, ho, that's a laugh," said the stranger.

"It don't seem funny to me," said Rufé.

"Come on, Katy, let's go over and see the show," said the stranger, and they disappeared in the crowd.

Rufé not knowing what to do, went over to a stand which had a man with his head stuck through a hole in a canvas. People were throwing baseballs trying to hit him on the head. Nobody succeeded. Rufé bought some balls and tried his shot. He hit and threw a few balls, all of which missed their mark, when he heard loud voices. The stand was deserted except for himself and he looked about for the stranger.

He saw Katy and the stranger, and they seemed to be arguing about something. Finally, Rufé heard Katy say she was going home and the stranger said she wasn't.

Rufé laid down the balls and walked over to them. "What's the matter, Katy?" he asked.

"What's to you," String Bean said to the stranger. "You'll find out," said Rufé, "if you don't let Katy alone."

"Oh, I will, huh?" said the stranger as he pulled out a long knife.

"Look out, Rufé, he's got a knife," said Katy.

Rufé looked at the knife and stepped forward. The stranger made a slash and Rufé stepped back minus an overall button.

Rufé chewed his tobacco, sized the stranger up, and down the stranger went again. This time the stranger wasn't going to miss with the knife. He started to make a slash and that was as far as he got. For suddenly he was rubbing his eyes and suddenly a fat hit him in the jaw and flattened him. Suddenly, too, the knife was taken from him.

"Rufé, you're wonderful," cried Katy as she threw her arms around the now beaming farmer, "but you shouldn't squirt tobacco juice in people's eyes. It isn't polite."

Rufé made no answer for a moment but just stood there. Suddenly he began to get paler every minute.

"What's the matter, Rufé? Did he hurt you?" asked Katy.

"No, Katy," answered Rufé, "but when you threw your arms around me like that—I swallowed my tobacco!"

HEAT

The world's biggest solar mirror, situated a mile above sea level in the Pyrenees, focuses enough of the sun's heat to melt a 100-pound block of iron in an hour, states the current Reader's Digest. A high wall faced with mirrors reflects the sunlight into a concave mirror 33 feet wide, concentrates the light into a narrow beam and creates temperatures of over 5,000 degrees F.

AVERAGE RANCH

Average size of Alberta ranches are 2,000 acres owned by the individual rancher with 8,000 additional acres under lease from the provincial government. 3145

Canadians get grim souvenirs

Names burned into wood by the terrific heat of an atomic explosion 2,000 yards away are among the souvenirs brought back by Canadian servicemen from Camp Desert Rock, Nevada. The troops, members of the Army's 1st Radiation Detection Unit with attached RCN and RCAP personnel, have just returned from the United States, first Canadians to have participated in an atomic test.

Shortly before the firing of the bomb (equivalent to 35,000 tons of TNT) stencils were cut bearing the names of all Canadians taking part in the exercise. These were positioned on wooden plates and placed about 2,000 yards from ground zero. The explosion generated such heat, even at that distance, that the names were clearly etched into the wood.

In addition to the name plates, each Canadian received an elaborate diploma signed by Atomic Energy Commission officials which stated that they had participated in "Operation Teapot", code name for the 1953 tests.

Funny and Otherwise

Sandy McTavish, who had worn the same straw hat for 25 years, finally decided to buy a new one. Entering the neighborhood hat shop, he said: "Well, here I am again."

Foreman: "How is it that you're only carrying one sack, when the other hands are carrying two?"

Laborer: "Well, I suppose they're too lazy to make two trips like I do."

Husband (at movie): "Why do you wimper and sniffle over that you cheer when a man you don't know slides into bed and base."

Wife: "For the same reason that you cheer when a man you don't know slides into bed and base."

"You know," said a young know-all to a farmer, "your methods of cultivation are years out of date. I should be surprised if you make \$100 out of it that field of oats."

"So would I," came the warm reply, "it's barley."

The Lieutenant entered the Pullman, painfully proud of his shiny gold bars. With the prospect of a big tip, the porter proceeded to butter him up.

"Morning Captain." And a few minutes later "Find it too warm in here, Major?"

In a short time he volunteered, "We're a bit late today, Colonel." Then, as the Lieutenant made ready to leave: "Bring your coat off for you, General?"

Three minutes afterwards he was inspecting the ten-cent tip. With a bellows that could be heard throughout the station, he shouted at the disappearing officer: "Good-bye, Corporal!"

Honeybees good pollinators

Honeybees are good pollinators of many crops because both the larvae and adult are dependent upon nectar and pollen for their food. Numerous visitations are required by a single honeybee to secure a load of pollen or nectar. The branched hairs of their bodies are particularly adapted for the collection of pollen. The tongue are capable of collecting minute quantities of nectar that are within their reach in the florets.

The honeybee are known to pollinate some fifty agricultural crops on this continent, and from these crops they store a large surplus of honey and pollen for winter supplies as compared with subsistence quantities stored by other types of bees.

The versatility of the honeybee, in working on many varied crops, makes it more valuable than other species of insects which are limited in the number of crops visited. Native pollinators vary with the seasons, parasites and predators, and although more efficient pollinators on some crops than honeybees, they cannot be controlled by man.

The apiculture division, Central Experimental Farm, Ottawa, Ontario, has shown that honeybees can and do pollinate red clover effectively. Extensive experimental work has been done on apples in the Annapolis valley, and currently work is under way with asparagus, birdfoot trefoil, blueberries, cucumbers and sunflowers.

Although much experimental work has been done on the individual behavior pattern of honeybees, their reactions under field conditions—that is among competing crops—requires additional study to determine their adaptability to crosspollinate crops under varied conditions of soil or climate.

THE TILLERS

GOODNESS, PAW, WHAT'S WRONG?

JABBER WAS HIDING IN THE BARN LISTENING TO THE RADIO INSTEAD OF WORKING!

WHEN HE LOOKED AROUND AND SAW HE HAD TOOK OFF LIKE A SCARED PHEASANT!

GOODNESS, THAT ONLY MADE IT WORSE!

YES, HE RAN AWAY WITH THE RADIO JUST AS THE HERO WAS TO BE BURNED AT THE STAKE!

Bumper yield seen Alberta winter wheat

Predictions of bumper yields are being made for southern Alberta's second average of winter wheat because of the excellent condition in which the crop has come into the growing season and because of the heavy moisture reserves.

Generally speaking, the crop is one of the finest ever seen in over 60 years of winter wheat raising in southern Alberta and many farmers already are predicting average yields of over 50 bushels per acre for themselves.

Estimates

Agrocluturists have estimated the average in winter wheat in southern Alberta at this time at over 250,000 acres. Some estimates have gone into the neighborhood of 300,000 acres.

Southern Alberta's harvesting of winter wheat crops normally begins in latter July and is completed around the middle of August, thus leaving farmers for cutting and combining spring-sown crops.

Planted unusually late last fall—some farmers east of Lethbridge still were expanding their acreage of winter wheat at the beginning of November—the crop completely escaped damage by streak mosaic, a virus disease which had become a serious problem. There also was little winter killing or other types of damage.

THINGS TO ADMIRE

The patience of a mother who child.

A public man who always keeps his honor undisturbed.

An after-dinner speaker who knows just the time to stop.

The farmer who admits it when he has a splendid crop.

The man who's not too dignified to lift a fallen child.

Or one who knows what trouble is.

But keeps his tongue quite mild.

The friend who can cheer you up with brightness in his face.

The woman who can frankly praise another's look and grace.

The skill that seems uncanny as at work we see the blind.

The person who at all times is reliable and kind.

—W. McLean

Grass-alfalfa mixtures said preferable to grasses alone

Grass-alfalfa mixtures should be grown in preference to grasses alone, according to the federal agriculture department. The yield will be about twice as high and the forage will be more nutritive, it says.

If grasses are seeded alone a perennial legumes is pretty well limited to alfalfa. There are several varieties available on the Canadian market and of these Ladak has proved to be the most suitable on the prairies.

Mixtures of grass and alfalfa are definitely recommended. For hay two pounds per acre of alfalfa should be seeded with the grass, while for pastures one pound per acre is sufficient.

It is advisable to grow grass-alfalfa mixtures rather than alfalfa alone, because the mixture will make a more balanced feed, and will persist for a longer period. When cut for hay it is much easier handled, and when pastured the bloat hazard is minimized.

Comparative yields

In a test at the Experimental Station, Federal Department of Agriculture, Swift Current, Sask., established in 1949, the dry matter yield of crested wheatgrass over a 5-year period was 962 pounds per acre, that of intermediate wheatgrass 962 pounds and bromegrass 869 pounds.

During the same period the three grasses with Ladak alfalfa produced 2372 pounds, 2668 pounds and 2101 pounds per acre respectively. Each grass with alfalfa yielded about two and one-half times as much forage as when it was grown alone.

Yield from tests

In another test seeded in 1947 a mixture of crested wheatgrass, intermediate wheatgrass and Russian wild ryegrass yielded 700 pounds per acre over a seven year period. A mixture of the same grasses with alfalfa, yielded 1940 pounds per acre during the same period.

The advantage of the alfalfa-grass mixture over the straight grass mixture was more apparent as the stand became older. In 1952 the grass mixture yielded 250 pounds per acre while the grass-alfalfa mixture produced 4500 pounds per acre, or about 18 times as much forage.

The following year the grass mixture yielded 1120 pounds per acre while the grass-alfalfa mixture produced 2840 pounds per acre. Because of an acute nitrogen deficiency, which develops in grass stands after the third crop year, grass production is limited to a large extent.

Although a farmer has a choice of several grasses for hay or pasture production in the drier areas of the prairie provinces, his choice

Personalities IN THE NEWS

Born to Mr. and Mrs. C. Wesley, at the C. N. P. hospital, on Monday, June 20th, a daughter.

Mr. and Mrs. F. A. Cox, of Kelowna B. C. are in the Pass this week renewing old acquaintances.

Mr. and Mrs. R. Greenhalgh are spending a holiday at Victoria and Vancouver.

Mr. J. Duncan of Lethbridge has arrived here to take up the position in the Government Liquor Store formerly held by J. Drew.

Mr. J. O'Dell of Creston, formerly of Coleman renewed acquaintances here last week.

Mrs. L. Troman, Mrs. L. Moore and Miss Mary Moore visited from Lethbridge on Sunday. While here they visited Mr. and Mrs. R. Crippen and family.

Mrs. N. Fleming left Thursday to take up residence in Victoria where her husband has gained employment. She will be accompanied by her family.

---Weddings---

OMELUSK - BARRASS
St. Paul's United Church was the scene of a very pretty wedding recently when Rose, daughter of the late Mr. and Mrs. T. Omelusk was united in marriage to David son of Mr. and Mrs. R. Barrass of Michel, B.C. Rev. Blair McPherson of Bellevue officiated at the ceremony.

Given in marriage by her brother George. The bride was lovely in a gown of net over satin with Lily point sleeves. Her bouquet was red roses and white carnations.

Mrs. Leona Wakulchik as Matron of Honor wore a pink gown with matching headpiece and white accessories. Her bouquet was a nosegay of spring flowers.

Miss Dorothy Niemeyer as bridesmaid wore a mauve gown with matching accessories and a bouquet of spring flowers to match her gown.

Miss Betty-Ann Omelusk, niece of the bride was flower girl wearing a white frock and carrying a basket of spring flowers. Tommy Wavrecan, nephew of the bride acted as ring bearer.

Tom Barrass, brother of the groom was best man while Laddie Poriz ushered the guests.

At the reception held in the Elk's Hall Mrs. A. Buckna, sister of the bride received with the bridal party wearing a powder blue suit with white accessories and a corsage of pink carnations. Mrs. Barrass, mother of the groom wore a frock of powder blue with white accessories and a pink carnation corsage.

The toast to the bride was proposed by the best man to which the groom ably responded.

For a trip to Great Falls the bride chose a blue suit with white accessories.

On their return the couple will take up residence in Coleman.

PORIZ - NIEMEYER
BLAIRMORE - The Blaimore United Church was the scene of a pretty mid-morning wedding on Monday, June 13 when marriage vows were read for Dorothy Mary May Niemeyer and Laddie Poriz. Rev. Chubb performed the 11:00 o'clock ceremony for the eldest daughter of Mr. and Mrs. Harry Niemeyer of Coleman and the only son of Mr. and Mrs. Henry Poriz of Blaimore.

The bride walked down the aisle amid a setting of tulips and fern bows and she wore a traditional white ballerina length gown of heavy brocade featuring a long sleeve bolero and full skirt. White accessories completed her ensemble while her bridal bouquet was of red roses.

Miss Niemeyer wore a turquoise rhine-stone necklace and matching earrings, a gift of the groom.

Evelyn Niemeyer, her sister's only attendant, was frocked in a mauve sleeveless dress and jacket. She wore a crown of mauve flowers and carried a bouquet of carnations and red roses.

Mr. Henry Niemeyer, brother of the bride, supported the groom while Mr. Fred Macura of Blair-

Mrs. Stewart Milley of Calgary was a recent Coleman visitor. While here she was the guest of Mr. and Mrs. J. Nash.

Marlene Bell of Coleman was a recent graduate in Stenography and Bookkeeping at the Garbutt Business College in Lethbridge. She has accepted a position with the B.C. Trust Co. in Lethbridge.

Mr. and Mrs. P. Beddington spent the past week at Penhold where they were the guests of their son and daughter-in-law and family Sgt. and Mrs. Fred Beddington, Jr. Sgt. Beddington is bandmaster of the R.C.A.F. band at the Penhold air force station.

Miss Mary Stewart of Creston, formerly of Coleman spent last week-end visiting with friends in Coleman.

Linda Field, daughter of Mr. and Mrs. W. Field escaped serious injury when her bicycle skidded throwing her into the side of a passing car. She received a severe gash on the knee which required hospital treatment.

Mr. W. Knight and Mr. V. Lilya now employed by a truck transport firm in Cranbrook visited with their families last week-end.

more ushered the guests.

For her daughter's wedding, Mrs. Niemeyer chose a nylon afternoon dress with white accessories and wore a corsage of carnations. Mrs. Poriz wore a brown afternoon dress with green accessories and a corsage of carnations.

Following the ceremony a re-

ception was held at the home of the newlyweds at which only the family were present. Tulips and fern were also decorating the room while a three tiered wedding cake centered the bride's table.

Mr. Roy Upham proposed the toast to the bridal couple.

For a honeymoon trip to the United States the bride donned a sand princess style dress with brown accessories.

Mr. Poriz is employed by the Alberta Government Telephones in Blaimore while Mrs. Poriz was employed at Zak's in Coleman.

Theft is costly to Canadians

Theft will cost Canadians more than \$6,500 a day this summer for insured losses alone, according to the All Canada Insurance Federation.

Officials of the Federation, which represents more than 200 fire, automobile and casualty insurance companies in Canada, said house burglaries during the summer months are one of the major hazards facing holidaying and cottage-bound homeowners.

All Canada recommended the following precautions:

- 1) Make arrangements to have lawns mowed when leaving house for vacation.
- 2) Drawn, blinds, lights left

burning in daytime and accumulations of newspapers and milk bottles are certain indications to burglars that house is unoccupied.

3) Always have house watched by police or neighbors.

4) Valuables such as silver and jewellery should be removed from house and left in a bank safety deposit box.

5- If theft is discovered, notify police immediately.
